Burning Issue

TCAC's 2014 Residency Programme

With *Burning Issue Residency Programme* TCAC has invited curators, artists and writers to leave the space of the classical studio to further extent, explore and connect their practice to community and society. In comparison to on-site and outcome-emphasized residencies, TCAC focuses on cultural researchers and contemporary artists with long-term concerned issues as their proposed projects. The core concept of *Burning Issue Residency Programme* is identifying the value of residency experience, the 'process' and 'issue', not the 'product'.
